APART SOUNDS LIKE THE RIGHT CHOICE

Apart Audio is a Belgian brand that has more than 20 years experience in the world of audio and offers quality audio products at affordable prices. Our product range consists of loudspeakers, pre-amplifiers, power amplifiers and music sources. They are mainly developed for the professional fixed install commercial audio market.

Feedback from the market proves that a lot of Apart products are frequently used for residential purposes. Even though residential audio products have slightly different specifications than commercial audio products, a lot of the existing Apart products do really outperform for these residential applications.

The MASK series and ROCK series are ideal products to install outdoor and in people's garden. The MARINE series will sound beautiful while you are taking a shower or using your sauna. And if you are looking for loudspeakers in your living room, the CMSQ108C (in-wall) or our new VINCI speakers will exceed your sound expectations. The all in one media player PMR4000R deserves a place in every living room because of its amazingly interesting features!
All the above reasons convinced us to create this dedicated Apart Residential Audio Catalogue. Take your time to find out more about our residential product range and discover all the interesting loudspeakers, electronics and music sources which can provide exactly the experience you were looking for!

For more information, consult your Apart dealer or visit our website www.apart-audio.com.

VINCI SERIES

The VINCI4 and VINCI5 bookshelf loudspeakers produce a pure and detailed bass sound and they also have superb control of mid-range and high frequencies. With its unique design and breathtaking sound purity, the bigger VINCI7 loudspeakers are definitely the right choice to create the perfect ambiance in your living room. With their fabulous design you will not need to search very hard to find a perfect spot for these prestigious VINCI loudspeakers.

The grille adorning the VINCI speakers is removable and held in place with magnets, so it's up to you which design you like the most. VINCI7 is finished off with a nice shiny coat of black varnish and will impress you with its great imaging, detailed reproduction and control. The VINCI4 or VINCI5 in glossy black or glossy white finish will perfectly fit next to your wall-mounted television screen and ensures that watching TV becomes a pure sound experience!

MASK SERIES

The MASK Series are the all-round speakers in our on-wall loudspeaker line-up. They can be installed in almost any place in your home where you would like to have quality music playing. MASK4 and MASK6 loudspeakers offer a combination of amazing sound and a stunning look that makes them ideal for your living room.

These full range loudspeakers can be used in combination with a subwoofer when higher power is needed. Because they are weatherproof as well, they even can bring life into your garden or on your terrace.

The MASK2 satellite speakers are the smallest speakers of the MASK series but despite their miniature design they don't compromise on sound quality in combination with the SUBLIME subwoofer (see page 25).

OVO SERIES

Loved for its price and quality sound, the OVO Series guarantees years of trouble-free musical enjoyment. You can equip your house with this series of elegant cabinet speakers without an excessive price tag and their unique shape ensures that they'll fit into any interior style.

Mounted in a corner they will look adorable and fill your house with powerful quality music! They can even be placed freestanding which can be ideal if you are looking for a cool and fresh design speaker to provide music on a shelf or your desk at home or at work. The ABS plastic housing and double painted steel parts allow the OVO Series to be used indoor as well as covered outdoor.

SUBA165-W
140 watts subwoofer

SUBLIME-BL
140 watts subwoofer
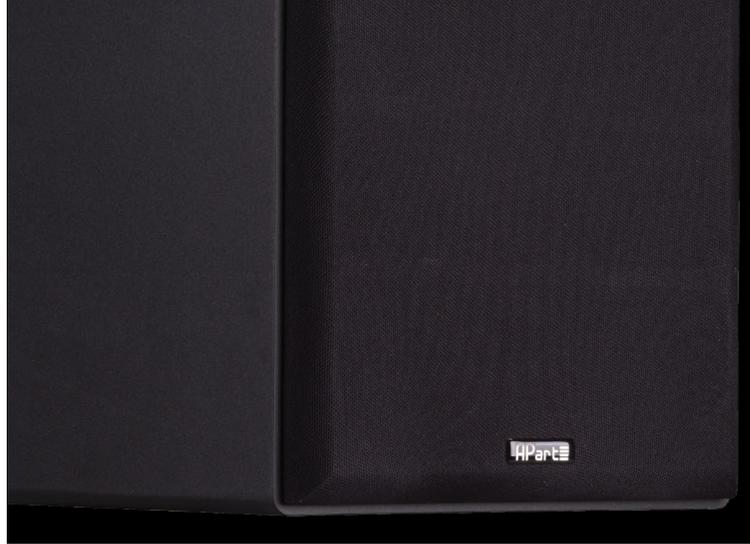

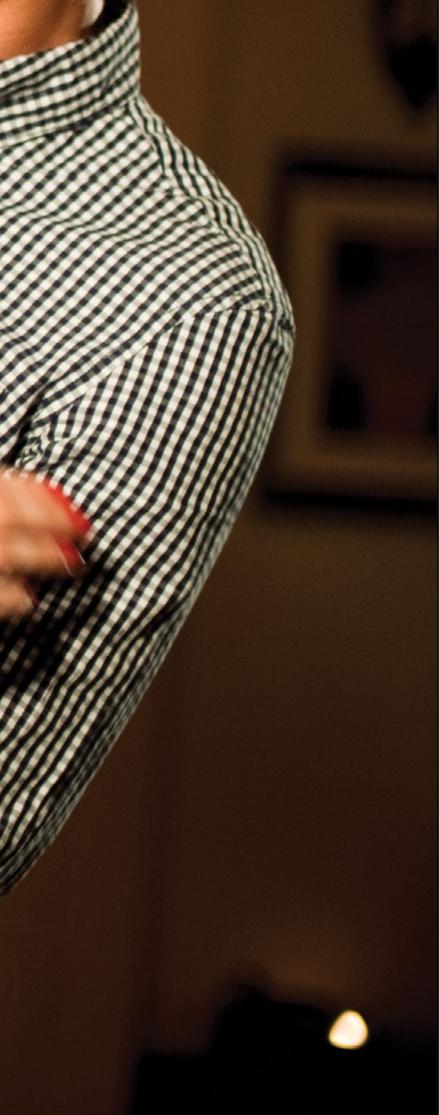

SUBWOOFER SERIES

Subwoofers are needed to fill your room with a fully rich sound and deep bass. SUBA165 will give you an incredible performance despite of its small size. At the back of the subwoofer you have an adjustable crossover (between 40 an 160 Hz) and a volume control that both can be set at your own expectations.

The unique flat design of the SUBLIME subwoofers guarantees an inconspicuous integration in your interior. Forget all the discussions about these big and ugly loudspeakers in your living room. It can be combined with small cabinets like MASK2 or OVO3 and even in combination with the CM4 ceiling speakers you will have an astonishing sound experience. Either for a complete music experience or a thrilling home cinema sound, our subwoofers will impress you.

CM SERIES

The CM Series is a range of in-wall or in-ceiling loudspeakers suited for almost every room in your house. To make sure you will find the loudspeaker you are looking for; this series offers round, rectangular or square models in different sizes.

Most of the CM loudspeakers have an aluminium grille that makes them suited to install in humid environments. No doubt these loudspeakers can change your chilly bathroom into a warm and atmospheric area where you will love to spend some time! From now on you will be able to relax in your warm bath with your favourite background music.

HI-FI SERIES

Discover our range of high quality in-wall speakers which combine stylish design and perfect sound quality. With their rectangular or square stylish flat and slim edged design, these speakers are difficult to see but sound remarkably warm. These loudspeakers are very easy to integrate in high-end audio chains or cinema surround systems and will offer a soundstage, unheard in its price range.

The 1" silk dome tweeter has a tilt function which allows you to adjust the direction of the sound reproduction. This feature makes it possible to create the perfect sound exactly where you want to enjoy the music! To integrate the loudspeakers more inconspicuously, the CMSQ and CMRQ loudspeakers can be painted in any RAL colour of your choice.

ROCK SERIES

Everyone likes to have a cozy garden where it's fun to spend some time when the weather is beautiful. We believe that spending time in your garden, on your terrace or around the swimming pool is much more fun when you can enjoy some splendid music.

The ROCK loudspeakers are weatherproof and with their inconspicuous design they seem to disappear into the environment, only the amazing sound will remind you of them. When you have installed the ROCK loudspeakers we will not be surprised that even working in your garden will become a pleasure. Who doesn't want to listen to music while working in your garden or relaxing on your terrace?

The VINCI2125 blasts 'new life' into a wide range of speakers!

VINCI 2125
INTEGRATED AMPLIFIER

The VINCI2125 is a great sounding high class integrated amplifier that can blast life into a wide range of speakers without any problem. Its sound is very solid and this high fidelity music control centre will give you lots of high quality listening pleasure. The minimalistic design of the VINCI2125 with just two controls makes the unit extremely easy to use. Switch the unit on or off, choose your sound source and control the volume. That's just how pure music can be.

Compare the VINCI2125 with a big bulky esoteric well-known amplifier and you will be amazed by the performance! Especially in combination with the VINCI7 loudspeakers, you can turn your house into a concert hall...

INPUTS
· 4 x 24 bit digital stereo inputs (3 x SPDIF, 1 optical)
· 3 analogue stereo inputs with highgrade CD connectors
· 1 phono input with moving coil / moving magnet selector

OUTPUTS
· 2 x 125 watts @ 4 ohms
· High-class loudspeaker wire binding terminals

Be in control of the music and volume in each zone!

CONCEPT1
INTEGRATED AMPLIFIER

CONCEPT1 contains a digital controlled pre-amplifier and a power amplifier. This integrated amplifier can operate with one stereo zone, two volume-linked zones or two individual-volume zones and can be controlled by your home domotics system. With the CONCEPT1 you are in control of the volume, tone control and source selection in each zone. It's up to you to decide what music plays in your kitchen, bathroom, study room or living room. A minimum of buttons on the unit helps to make your life as simple and easy as can be. Also nice to know is that there is microphone input which can be used when your children would like to sing, act and sound like a real musical artist!

MUSIC SOURCES

Brace yourself for a range of music sources unlike anything you have ever experienced before, because Apart's music sources stand out by their performance and technology. This wide range will provide you a solution whether you are looking for a simple tuner, CD-player or an all in one media player...

The flagship model, PMR4000R media player, has internet radio, FM radio and a UPnP server inside that allows you to connect to all other UPnP-servers on your local network. You can easily play all music files or select playlists which are stored on any connected device. Thanks to the free downloadable Silicon Frontier app, you can even control the PMR4000R via your smartphone or tablet.

A unique stylish design and breathtaking sound purity…

PREMIUM SET
PRESTIGIOUS AUDIO SYSTEM

Just sit down, listen… and relax! That's how we can describe the VINCI PREMIUMSET experience. It combines a unique design and breathtaking sound purity. In order to meet the highest demands and expectations, Apart launched the dedicated VINCI PREMIUMSET that consists of two fabulous prestige VINCI7 loudspeakers and a high-class integrated VINCI2125 amplifier. Two VINCI7ST loudspeaker stands allow inconspicuous cable management and make sure this 2-way sound system is placed on the ideal listening height and it gives that little extra classy look in your interior.

CONFIGURATION

· 2 x prestigious VINCI7 loudspeakers
· 2 x stylish VINCI7ST loudspeaker stands
· 1 x high-class VINCI2125 integrated amplifier

Small size, but no compromise on sound quality!

MASK2 / SUBLIME
COMPLETE AUDIO SYSTEM

MASK2 satellite speakers are the smallest speakers in the MASK Series but despite their miniature design they don't compromise on sound quality. Some people like to have a sound system in their house which does not take over the room.

The MASK2/SUBLIME solution will be unnoticeable as the SUBLIME subwoofer is extremely compact which allows you to hide it behind a closet or curtain. If you prefer a built-in version of this solution, then use the CM4 (see page 12) instead of MASK2. The aim of these combinations is primarily for background music but they can be cranked to higher levels if you are in a party mood.

CONFIGURATION

· 2 x MASK2 satellite loudspeakers
· 1 x SUBLIME subwoofer
· Available in black and white

Adjust the volume of each room
with these stylish intuitive volume controls.

2 x 20 watts stereo volume control

N-VOLST-WO / N-VOLST-CO / N-VOLST-W / N-VOLST-SLV / N-VOLST-BL
2 x 20 watts stereo volume control

VOLUME CONTROLS

Are you frustrated to walk those extra meters to adjust the volume of the music that is playing? With the N-VOLST and E-VOLST volume controls you can adjust the volume of your loudspeakers in each room. Afraid these volume controls will not fit your interior style? These N-series of volume controls with genuine Niko parts have a timeless and classy design that makes them suited all around the house especially because they are available in five different colours.

The SVC4 multiple stereo volume control allows you to connect four pairs of loudspeakers to one amplifier output. This makes it possible to create 4 different volume zones where you can adjust the volume for each pair of loudspeakers separately without influencing the volume in other zones. This allows you to create the most cost-effective multi-room sound system in the world! (Keep in mind to use 16 ohm loudspeakers!)

"Those looking for a fairly compact speaker capable of laying down a huge soundstage are right on track with the Apart VINCI7."

+ **Very spatial reproduction**
+ **Great imaging**
+ **Sleek finish**
- **Speakers not anchorable on**
- **stands**
  Limitations in the bass reproduction

CONCLUSION

Despites its rather discrete appearance we find this VINCI7 quite a notable speaker, and that's mainly due to its appealing performance features. It combines a large degree of spatial reproduction with great imaging, good detailed reproduction, and lastly, control. Yes, even without the addition of sub, though it does seem like a good idea to add one anyway when you use these speakers for any purpose other than acoustic music.

In brief: a speaker intriguing enough to captivate and also to continue to do so in the long term, without being tiring or analytical. With that, it seems this Apart VINCI7 holds enough trumps and they should allow it to compete with the 'big boys' in this segment.

Full review on www.apart-audio.com

"Also with regard to the imaging – a classic asset of bookshelf speakers – everything is more than all right. All instruments and vocal lines acquire a clear place in the whole, while the speakers themselves 'disappear' in the music. It makes for an intriguing listening experience with live recordings, but also with electronic music the VINCI7 can conjure up an almost absurd effect."

FWD HOME ENTERTAINMENT MAGAZINE

+ **Constructional quality**
+ **Authoritative, musical sound**
+ **Built-in DAC**
- **Without pre-out or tape-out**
- **Volume difference between mute and lowest volume setting**

"The VINCI2125 blasts new life into a wide range of speakers."

"VINCI2125 makes a typical AV-receiver with a similar price tag seem like it's running on flat tyres."

CONCLUSION

With the VINCI2125, Apart has created a great sounding amplifier that can blast life into a wide range of speakers without any problem whatsoever. The sound is solid, with a rich tone still leaving sufficient space for small nuances. Add to that the fine DAC and more than decent construction quality and you have an amplifier that will give you years of pleasure.
